

Emmanuel A. Akowuah, DrPH, MS

Department of Public Health
Robbins College of Health and Human Sciences
Baylor University

Education

Georgia Southern University, Statesboro, GA
DrPH, Public Health Leadership

University of North Dakota, Grand Forks, ND
MS, Kinesiology

Kwame Nkrumah University of Science and Technology, Kumasi, Ghana
BSc, Sports and Exercise Science

Professional Experience

Baylor University, Department of Public Health
Robbins College of Health and Human Sciences, Waco, Texas
Lecturer and Internship Coordinator (August 2020-Present)

Teaching Responsibilities

- Teach core public health courses in the BSPH program (4-3 loads).
- Work with the BSPH director and other faculty members to maintain high-quality approaches to teaching while also expanding class sizes.
- Assist with course-specific accreditation requirements and reports.
- Contribute to ongoing curriculum development efforts.

Internship Coordinator Responsibilities

- Serve on local coalitions and/or organizational advisory boards to maintain a strong departmental presence in the local community.
- Develop and maintain community-based partnerships and internship opportunities for BSPH students.
- Communicate with BSPH majors about internship opportunities and requirements.
- Develop and maintain an internship guide and other needed documents.
- Mentor students in the development of their internship proposals.
- Mentor and supervise students in their internships and interact with site supervisors.
- Facilitate end-of-semester internship presentations and evaluations.

Baylor University, Department of Public Health
Robbins College of Health and Human Sciences, Waco, Texas
Graduate Practicum Coordinator (Summer 2021)
Responsibilities: Coordinate the summer MPH practicum program.

Georgia Southern University, Department of Health Policy & Community Health
Jiann-Ping Hsu College of Public Health, Statesboro, Georgia

Graduate Research Assistant (August 2015–June 2020)

Responsibilities: Literature review, survey design and administration, entry and analysis of quantitative and quantitative data, data extraction, cleaning and visualization, writing and editing of project report, and results in dissemination.

J.C. Lewis Primary Health Care Center, Inc.
Savannah, Georgia

Intern (Fall 2017)

Responsibilities: Assisted with schedule development regarding increasing patients seen vs. scheduled. Researched and mapped patient demographics to identify the areas of the patient population (zip code areas). Researched top diagnoses that result in referrals.

Georgia Southern University, Department of Health & Kinesiology
College of Health and Human Sciences, Statesboro, Georgia

Research Assistant (Fall 2014)

Responsibilities: Evaluated the teaching performance of graduate teaching assistants of the department.

The University of North Dakota, Center for Rural Health
School of Medicine and Health Sciences, Grand Forks, North Dakota

Research Assistant (Fall 2013)

Responsibilities: Evaluated the effectiveness of a grant-funded project and developed standard operating procedures to improve and ensure consistency in program implementation.

Mampong Government Hospital, Physical Therapy Department Ghana Health Services, Mampong,
Ashanti Region

Exercise Therapist (October 2010 – June 2012).

Responsibilities: Consulted with new clients to learn about their disabilities and symptoms. Diagnosed and developed treatment plans for clients. Provided care to clients who were recovering from an accident or illness. Promoted wellness and a healthy lifestyle and prevented sports injuries. Assisted patients recovering from injury and illness to regain strength and functionality so they could gain independence or return to work. Educated patients on the proper use of therapeutic exercise techniques. Massaged clients to promote healing.

Tema General Hospital, Physical Therapy Department
Ghana Health Services, Tema, Greater Accra Region

Physical Therapy Assistant (May 2009-August 2009)

Responsibilities: Provided care to clients who were recovering from an accident or illness. Promoted wellness and a healthy lifestyle and prevented sports injuries. Assisted patients recovering from injury and illness to regain strength and functionality so they could gain independence or return to work. Educated patients on the proper use of therapeutic exercise techniques. Massaged clients to promote healing.

Research Projects

Flex Financial and Operational Improvement Grant

2019-2024

Project Description: The purposes of this project are to identify the financial and operational challenges faced by a subset of 30 CAHs in Georgia, identify opportunities for improvement in each hospital's financial and operational management processes and conduct intensive on-site and web-based education/training on evidence-based financial management and operational improvement strategies.

Responsibilities: Survey design and administration, entry and analysis of research data, data visualization, and editing of the project report.

Effingham Health System Long-Term Healthcare Market Analysis

Fall 2019

Project Description: To research the community demand for different types of long-term care in the future in Effingham County. The purpose of this survey is to better understand the wants and needs of residents of Effingham County for a nursing home, assisted living, and in-home care.

Responsibilities: Survey design and administration and entry, analysis and visualization of research data.

Assessment of Employee Engagement at Crisp Regional Hospital (Year 3)

Fall 2019

Project Description: The purpose of this project was to conduct an independent assessment of employee engagement within the healthcare system of Crisp Regional Hospital in Georgia.

Responsibilities: Survey design and administration, entry and analysis of quantitative data, and data visualization.

Community Health Needs Assessment for Effingham Health System

Fall 2019

Project Description: The purpose of this community health needs assessment is to make sure that Effingham Health System is doing all it can to meet the health needs of the community.

Responsibilities: Survey design and administration, entry and analysis of quantitative data, data visualization, and report writing.

Community Health Needs Assessment for Clinch Memorial Hospital

Fall 2019

Project Description: The purpose of this community health needs assessment is to make sure that Clinch Memorial hospital is doing all it can to meet the health needs of the community.

Responsibilities: Survey design and administration, entry and analysis of quantitative data.

Assessment of Employee Engagement at Crisp Regional Hospital (Year 2)

Summer 2018

Project Description: The purpose of this project was to conduct an independent assessment of employee engagement within the healthcare system of Crisp Regional Hospital in Georgia.

Responsibilities: Survey design and administration, entry and analysis of quantitative data, data visualization, and editing of the project report.

Integrated HIV Prevention and Care Plan

Summer 2018

Project Description: The purpose of the project was to work collaboratively with the Southeast Health District and its key stakeholders to develop an integrated HIV prevention and care plan for the district's Ryan White HIV/AIDS program.

Responsibilities: Survey design, data extraction, and data visualization.

Flex Financial and Operational Improvement Grant

2016-2018

Project Description: The purposes of this project are to identify the financial and operational challenges faced by a subset of 16 CAHs in Georgia, identify opportunities for improvement in each hospital's financial and operational management processes and conduct intensive on-site and web-based education/training on evidence-based financial management and operational improvement strategies.

Responsibilities: Survey design and administration, entry and analysis of quantitative data, and editing of the project report.

Assessment of Employee Engagement at Crisp Regional Hospital (Year 1)

2017

Project Description: The purpose of this project was to conduct an independent assessment of employee engagement within the healthcare system of Crisp Regional Hospital in Georgia.

Responsibilities: Survey design and administration, entry and analysis of quantitative data, data visualization, and writing and editing of the project report.

Assessment of the Need for Health Services among Migrant Workers in Georgia

2017

Project Description: The purpose of this project was to conduct a health needs assessment for six migrant clinics in Georgia.

Responsibilities: Entry and analysis of quantitative data and editing of the project report.

Chronic Disease Management in Ghana – Perspectives of Healthcare Providers

2016-2017

Project Description: The purpose of this study was to obtain healthcare providers' perspectives on the challenges and opportunities related to chronic disease management in Ghana.

Responsibilities: Survey design and administration, entry and analysis of quantitative and qualitative data, and editing of the project report.

Community Planning for Hospital Sustainability in Four Rural Georgia Hospitals

2016

Project Description: The purpose of this hospital's collaborative community planning initiative was to identify healthcare access and other critical needs and to develop a financial sustainability plan to meet the needs identified. Organizational performance and community assessments were conducted.

Responsibilities: Entry and analysis of quantitative data.

Evans Memorial Hospital Community Health Needs Assessment

2015-2016

Project Description: The purpose of this project was to conduct a Community Health Needs Assessment (CHNA) for Evans Memorial Hospital's primary service area of Evans and Tattnall Counties.

Responsibilities: Survey design and administration, entry and analysis of quantitative data, and writing project reports.

The Rural Health Sustainability Project

2016

Project Description: The purpose of this project was to describe efforts undertaken by Georgia's rural hospitals to improve financial sustainability. The project's overarching goals include: The identification and description of strategies adopted by rural hospitals to improve overall financial sustainability and the assessment of the perceived effectiveness of these strategies/programs at improving overall financial sustainability.

Responsibilities: Survey design and administration, literature review, entry and analysis of quantitative data, and editing of the project report.

Georgia Rural Health Systems Planning Grant

2015 – 2016

Project Description: The goal of this project was to assist four non-profit rural hospitals and communities in conducting an evaluation of their current and projected financial position as well as identifying healthcare access and other needs critical for the stabilization of their local rural community hospital.

Responsibilities: Survey design and administration, literature review, entry and analysis of quantitative data, and editing of the project report.

RN-BSN Degree Program Needs Assessment

2015

Project Description: The purpose of this study was to assist East Georgia State College in assessing the need for a Bachelor of Science in Nursing (BSN) degree program in Emanuel County and its contiguous counties of Burke, Candler, Jenkins, Johnson, Jefferson, Montgomery, Tattnall, Toombs, and Treutlen.

Responsibilities: Survey design and administration, literature review, analysis of quantitative data, and editing and formatting of the project report.

Southwest Georgia Workforce Needs Assessment

2014 – 2015

Project Description: This study utilized a mixed-methods approach to conduct a workforce needs assessment for Southwest Georgia.

Responsibilities: Literature review, entry, and analysis of quantitative data, editing and formatting of the project report.

Ghana Electronic Health Records Project

Spring 2015

Project Description: This study involved the conversion of paper health records to electronic health records for two government hospitals in Ghana.

Responsibilities: Designed electronic folders using Epi Info, data entry, report writing, and project coordination.

Graduate Teaching Assistants (GTAs) Evaluation Project

Fall 2014

Project Description: The goal of this project was to evaluate the effectiveness of the teaching styles adopted by the various graduate teaching assistants of the Kinesiology Department of Georgia Southern University.

Responsibilities: Observed and evaluated the teaching styles of Graduate Teaching Assistants.

Seven Generation Center of Excellence Evaluation Project

Fall 2013

Project Description: The goal of this project was to evaluate the effectiveness of the center's summer Reservation Tour Program aimed at getting more Native Americans interested in pursuing careers in behavioral health.

Responsibilities: Evaluated the Reservation Tour Program and developed standard operating procedures to improve and ensure consistency in the program implementation.

Teaching Experience

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Health Concepts/Competencies (Fall 2022)

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Global Health (Fall 2022)

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Stress Management/Mental Health (Fall 2022)

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Introduction to Public Health/Population Health (Spring 2022)

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Stress Management/Mental Health (Spring 2022)

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Professional Internship/Health (Fall 2021)

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Introduction to Public Health/Population Health (Fall 2021)

Baylor University, Department of Public Health

Robbins College of Health and Human Sciences, Waco, Texas

Instructor: Stress Management/Mental Health (Fall 2021)

Baylor University, Department of Public Health
Robbins College of Health and Human Sciences, Waco, Texas
Co-Instructor: Program Planning in Health Education (Fall 2021)

Baylor University, Department of Public Health
Robbins College of Health and Human Sciences, Waco, Texas
Instructor: Introduction to Public Health/Population Health (Spring 2021)

Baylor University, Department of Public Health
